## **CHAIRMAN'S REPORT**

I am pleased to present my Chairman's Report for the year ended 30 September 2014.

The Company is now in its third year of run-off.

In the year to 30 September 2014 we recorded a deficit of £251,639, compared to a deficit of £767,026 in the previous year. The main reason for the reduced deficit was that, although there was an increase in reinstatement premiums and a reduction in investment income, we were able this year to release some of the claims reserves.

THE Company's claims position continues to be volatile. The total gross payment in claims for the year of £9.62m is significantly higher than the £3.99m paid last year. The explanation for the increased payment is that claims are being settled much earlier. If this trend continues, it has the advantage of reducing the time the Company spends in run-off thereby lowering the administrative cost of the run-off. It is also encouraging to note that there was a release of £0.755m of claims reserves in the year.

Firms will have noted from the Company's January 2014 Newsletter that the risk of further supplementary calls cannot be discounted altogether, and the two factors responsible for this risk are first the inherent volatility of the Company's claims and, second, the threat of the Company's regulator insisting that the Company meet the capital requirements imposed on it by Solvency II, and this would require the Company to call additional capital. The implementation date for Solvency II is 1 January 2016.

To minimise the prospect of making further supplementary calls, the Directors have been actively exploring the option of disposing of the Company's book of business to a specialist run-off entity. However as the Company is still in the relatively early stages of its run-off, the early indications of the likely premium a run-off entity would require suggests that this is still too high but should reduce as the Company's run-off progresses. The Board remains confident that with each passing year the cost should decline and in the meantime the Board will continue to seek buyers for the Company.

With regard to the risk of having to make further supplementary calls in order to comply with the Company's regulatory solvency capital requirement under Solvency II, the Board intends to take advantage of the grace period provided to insurance companies in run-off under Solvency II – the transitional arrangements. Under the transitional arrangements the Company would not have to meet its Solvency II regulatory capital requirement following the introduction of Solvency II on 1 January 2016 but will need to have terminated its activities by 1 January 2019. That said, the risk of having to make a further supplementary call to provide regulatory capital is probably higher than it was this time last year.

As a run-off company, the Company has perforce adopted a very conservative investment policy, which is to invest primarily in Government Treasury bills and cash. The purpose of the investment policy is to conserve and preserve capital in order to meet the Company's future obligations. The conservative investment policy is of course reflected in lower returns.

Finally I would like to thank the Directors of the Company who provide their time, energy and expertise in steering the Club through the challenges of the run-off. I would also like to thank the Managers for their continued commitment to administering the Company's run-off.

## STRATEGIC REPORT

The Directors have pleasure in presenting their Report and the Financial Statements for the year ended 30 September 2014.

### Review of the Year

The principal activity of the Company during the year was the management of the run-off of the Company's business as a mutual insurer of Solicitors against risks arising from professional negligence following the decision of the Members of the Company in March 2011 to cease accepting any new business and to place the Company into run-off.

The deficit arising out of the year's operation after tax was (£251,639) (2013: (£767,026)) and this was transferred from reserves. The free reserves now amount to £2,471,356 (2013: £2,722,994).

### Financial Results

The Income and Expenditure Account (on page 11) and the Balance Sheet (on page 12), together with the notes to the Financial Statements, set out the Company's financial performance in detail. The following table compares key financial information for the year end 30 September 2014 and 30 September 2013.

	2014 £'000	2013 £'000
Bad debt recovery on supplementary calls	123	179
Reinstatement Reinsurance premium	(621)	70
Net claims incurred	755	(435)
Operating expenses	(520)	(585)
(Deficit) on technical account	(263)	(771)
Net Investment Income & Tax	11	4
(Deficit) for the financial year	(252)	(767)
Free reserves at year end	2,471	2,723

The Directors have set in place formal investment policies and objectives. The primary objective is to conserve and preserve capital to cover future obligations.

The Company has 78.29% holdings in Cash and Cash equivalents (Treasury Bills), 17.16% holdings in UK Gilts and 4.55% holding in Government guaranteed corporate bonds. The investment return for the year excluding cash at bank was 0.34 % (2013: 0.27%).

The Company exceeded the Base Capital Resource Requirement (BCRR) of £2.359m by £0.112m.

## STRATEGIC REPORT (continued)

### FINANCIAL RISK MANAGEMENT

The Company is exposed to financial risk to its assets and on its liabilities. The most significant risks are market risk, credit risk, insurance risk, reinsurance risk and liquidity risk. The Company has policies and procedures in place to mitigate all these risks.

**Market risk** relates to the risk of changes in the financial markets affecting the value of the Company's investments. The investment performance is monitored by means of reports from the Investment Manager to the members of the Audit, Investment and Claims Committee who in turn report to the Board.

**Credit risk** relates to the risk of Members failing, in whole or in part, to meet their obligations to the Company. Exposure to non-payment of supplementary calls is mitigated by strong credit control procedures and monitored by regular reports to the Board.

**Insurance risk** is the risk associated with claims on the Company. Exposure is mitigated by a strategy of risk transfer through the Company's reinsurance programme and holding sufficient free reserves. The reserves held by the Company for individual notifications are reviewed twice a year by the Audit, Investment and Claims Committee, and that Committee also reviews the overall claims reserves at each meeting.

**Reinsurance risk** relates to the possibility of a reinsurer defaulting and being unable to meet their obligations under the reinsurance contracts. This risk was mitigated by only placing reinsurance with reinsurers holding a Standard & Poor rating of A- or higher and limiting the maximum line with any one reinsurer to 25 per cent on any one layer. As the Company is now in run-off it no longer purchases reinsurance.

**Liquidity risk** of the Company is mitigated by the availability of assets within the balance sheet of the Company, which can readily be converted into cash to meet liabilities as they fall due.

## **DIRECTORS REPORT**

The Directors have pleasure in presenting their annual report together with the audited financial statements of the Company for the year ended 30 September 2014.

The Company has appointed S.I.M.I.A. Management Company as sole Managers to manage its business affairs and operations and has appointed Thomas Miller Investment Ltd to manage the Company's investment portfolio. Both S.I.M.I.A. Management Company and Thomas Miller Investment Ltd are owned by Thomas Miller Holdings Limited.

The Company has no employees.

The principal risks and uncertainties facing the Company have been covered under the heading Financial Risk Management.

The Board of Directors purchased Directors' and Officers' Liability Insurance to indemnify the Directors and Officers of the Company against loss arising from any claim made against them jointly or severally by reason of any wrongful act in their capacity as Director or Officer of the Company. The insurance also covers the Company's loss when it is required or permitted to indemnify the Directors or Officers pursuant to the law, Common or Statutory, or the Articles of Association. The cost of the insurance is met by the Company and the premium is detailed in note 7 to the Financial Statements.

### **Going Concern**

After making enquiries, the Directors have a reasonable expectation that the Company has adequate resources to continue operations for the foreseeable future. For this reason, the going concern basis has been adopted in preparing the accounts.

### **Directors and Officers**

The names of the Directors of the Company as at year end are shown on page 2.

In accordance with Article 19 Messrs' C.J.Harris, A. J.Paton and P.J.H Vaughan retire by rotation and being eligible offer themselves for re-appointment at the forthcoming Annual General Meeting.

In the case of each of the persons who are Directors at the time this report is approved, the following applies:

- (a) So far as the Directors are aware, there is no relevant audit information of which the Company auditors are unaware, and
- (b) They have taken all the steps that they ought to have taken as a Director in order to make themselves aware of any relevant audit information and to establish that the Company auditors are aware of that information.

## DIRECTORS REPORT (Continued)

### Meetings of the Directors

During the year ended 30 September 2014 the Directors held three formal meetings on 3 December 2013, 25 February 2014 and 8 July 2014.

They also maintained contact with the Managers between meetings, in order to fulfil the general and specific responsibilities entrusted to them by the Members under the Associations Articles and Rules. The items considered and reported at the three meetings included:

**Audit:** The auditors' report on the 2013 financial statements and the annual return to the Prudential Regulatory Authority (PRA) for the year ending 30 September 2013 were approved by the Board and formally adopted at the Annual General Meeting held on 25 February 2014.

**Claims:** Approval of year-end claims reserves. Review of claims and notifications received in the year, closing of policy years and reports on cash calls from the Assigned Risk Pool (ARP).

**Directors:** Re-appointment of Directors and renewal of Directors and Officers liability insurance.

**Finances:** Financial forecasts and financial reports for the year. Review of internal audit, approval of run-off plan, report on unpaid supplementary calls.

**Regulatory:** The following policies were reviewed and approved as part of the Company's Solvency II implementation plans: Conflicts of interest, Risk Management Framework, Operational Risk Management, Regulatory Compliance, Investment Risk, Internal Control Framework, Fit & Proper and Outsourcing Management. The board also entered into correspondence with the Prudential Regulatory Authority (PRA) in respect of the Company's regulatory capital.

**Investments:** Receive reports on investment performance and agree a revised Investment Policy.

**Other Matters:** Reports on the feasibility of a run-off solution, updating of web site and management fee agreements.

### Board Committees

**The Audit, Investment and Claims Committee** comprises Messrs E.C.J. Wells. (Chairman), B.W.D.Richards, and P.J. Russell. It assists the Board in discharging its responsibilities for the integrity of the Financial Statements, compliance with regulatory requirements, assessing the business risks the Company faces, determining as well as monitoring the Company's investment policy and overseeing the run-off plan. It also assists the Board in, reviewing notified claims to ensure that the Company holds adequate individual and overall claims reserves. The Committee met on four occasions in the course of the year.

## **DIRECTORS REPORT (Continued)**

### **Statement of Directors' Responsibilities**

The Directors are responsible for preparing the Directors' Report and the Financial Statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare Financial Statements for each financial year. Under that law, the Directors prepare the Financial Statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Standards and applicable law). Under Company law, the Directors must not approve the Financial Statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the Profit or Loss of the Company for that period. In preparing these Financial Statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the Financial Statements;
- prepare the Financial Statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

### **Auditors**

The Company's auditors, Messrs Moore Stephens LLP, have expressed their willingness to continue to serve as the Company's auditors. A resolution for their re-appointment and to authorise the Directors to fix their remuneration will be submitted to the forthcoming Annual General Meeting.

By order of the Board

## **REPORT OF THE INDEPENDENT AUDITORS**

### **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF THE SOLICITORS INDEMNITY MUTUAL INSURANCE ASSOCIATION LIMITED ('THE COMPANY')**

We have audited the financial statements of Solicitors Indemnity Mutual Insurance Association Limited for the year ended 30 September 2014 which are set out on pages 11 to 26. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

#### **Respective responsibilities of directors and auditor**

As explained more fully in the Directors' Responsibilities Statement set out on page 8, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

#### **Scope of the audit of the financial statements**

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Report of the Directors to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

#### **Opinion on financial statements**

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 30 September 2014 and of its deficit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

# **SOLICITORS INDEMNITY MUTUAL INSURANCE ASSOCIATION LIMITED**

## **REPORT OF THE INDEPENDENT AUDITORS (Continued)**

### **Emphasis of Matter – Technical Provisions**

In forming our opinion, which is not qualified, we have considered the adequacy of the disclosures made in accounting policy note 2(c) and note 6 of the Financial Statements concerning the inherently uncertain ultimate outcome of liability claims and the amount of the technical provisions. In view of the significance of this uncertainty we consider that it should be drawn to your attention.

### **Opinion on other matter prescribed by the Companies Act 2006**

In our opinion the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

### **Matters on which we are required to report by exception**

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

## NOTES TO THE FINANCIAL STATEMENTS

### 1. Constitution

The Company is incorporated in England as a Company limited by guarantee and not having a share capital.

In pursuance of its business and in accordance with its Memorandum, Articles of Association and its Rules, the Company has the right to make Supplementary Calls on its Members to meet its liabilities.

In the event of the winding up of the Company, after its liabilities have been satisfied, any remaining assets would be distributed to the Members in accordance with the provisions contained in the Articles of Association.

### 2. Accounting Policies

These Financial Statements have been prepared under the historical cost convention as modified to include investments at market value, in compliance with schedule 3 to the Large and Medium sized Companies and Groups (Accounts and Reports) Regulations 2011 (SI 2011/410) of the Companies Act 2006 and in accordance with applicable accounting standards in the U.K. and with the Statement of Recommended Practice issued by the Association of British Insurers in December 2005 (as amended in December 2006). The Statutory "Profit and Loss Account" is replaced by "Income and Expenditure Account" throughout these Financial Statements consistent with the Mutual status of the Company. The particular accounting policies adopted are described below.

#### (a) Accounting convention

##### (i) Going concern basis

The Directors have assessed the position of the Company and are of the opinion that the Company has adequate resources to meet its insurance and other liabilities as they fall due for payment. The Company has maintained a margin over the base regulatory capital requirements for this year.

The Directors have reasonable expectation that the Company will be able to continue in operational existence as a going concern for the foreseeable future on the basis that the Company has the ability to raise additional capital by way of Supplementary Calls on open policy years.

The Company has the power to make Special Supplementary Calls – payment of up to 100% of the premium deferral originally granted to members – and General Supplementary Calls. General Supplementary Calls are limited to three times the gross premium paid by members in any one policy year. The Company's ability to make Supplementary Calls of this magnitude will suffice to meet any additional capital requirements and other liabilities.

The Company has made Supplementary Calls in previous years.

# SOLICITORS INDEMNITY MUTUAL INSURANCE ASSOCIATION LIMITED

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

### 2. Accounting Policies (continued)

#### (ii) Annual accounting

These Financial Statements have been prepared on an annual accounting basis.

#### (iii) Policy year accounting

For the purposes of reporting to Members, all transactions, including calls, reinsurance premiums payable, claims and reinsurance recoveries, are allocated to the policy year to which they relate. In the case of claims and reinsurance recoveries, the appropriate year is decided by the date on which the claim or the potential claim giving rise to the claim is notified to the Company. The realised and unrealised investment income is allocated proportionately to the average balance of funds on each policy year. Operating expenses are allocated to the current year. Other income and expenditure is allocated to the current policy year.

Members remain liable for their rateable proportions of any excess of claims and expenses over income for any open policy year. Underwriting years are closed only when the Directors are satisfied that the information on claims payable is sufficiently reliable to enable the outcome of that year to be determined with reasonable accuracy.

The Income and Expenditure account presents the aggregate of changes during the financial year on all policy years, both open and closed.

#### (iv) Closed policy year

Policy years are closed when sufficient information is available for a result to be determined with reasonable certainty. Policy years 1986 to 2001 are closed.

### (b) Gross premiums written

Gross premiums written comprise advance calls, premium deferrals and Special and General supplementary calls. These represent the total receivable for contracts with an inception date during the accounting period together with any premium and supplementary call adjustments relating to prior periods.

Advance calls are calls made gross of deferral and recognised on an inception basis.

Premium deferral (reduction as per the Rules of the Company) is given to those Members committing to accept a specified level of cover for a specified period.

The Company has the right to call back premium deferral given on a notified basis. These are described as Special Supplementary Calls.

The Company has the right to make General Supplementary Calls in respect of any Open Policy Year. The amount of any General Supplementary Call cannot however exceed in aggregate a sum equivalent to three times a Member's net premium income (gross premium less brokerage or commission) for that policy year.

Bad debt recovery on supplementary calls	<u>122,548</u>	<u>178,684</u>

The bad debt recovery is a write back of the provision on outstanding supplementary calls that have now been received.

#### (c) Claims

Claims are accounted for on a notifications basis.

The claims provision in the Balance Sheet represents:

- (I) Estimated claims and defence costs as at 30 September 2014, on notified claims for all policy years.
- (II) An additional amount to provide against adverse development on estimated and unestimated claims and circumstances.
- (III) A provision for the Managers' future claims handling costs in respect of (I) and (II).

Claims incurred in the Income and Expenditure Account includes:

- (I) Claims and defence costs paid during the year;
- (II) The claims handling costs of the Managers (see note 6(a)); and
- (III) The movement in the claims provision (see note 6c).

Case estimates are set using information provided by the lead underwriter and solicitors instructed to act for insured. Solicitors acting for insureds base their estimates on the information available about individual claims and their experience of similar cases. The Managers' legally qualified in-house claims handlers are guided by the reserves recommended by the solicitors instructed to act for insureds.

Where it is not yet possible to make an assessment of the likely outcome of a claim, the Managers will consider the details of the claims and where appropriate record estimates, including an additional provision for potential deterioration if required.

### 2. Accounting Policies (continued)

#### (c) Claims (continued)

The Managers report to the Audit, Investment and Claims Committee which considers the estimates and approves the year-end reserves. The Company's claims profile does not readily lend itself to setting claims reserves on the basis of statistical analysis. Past experience is one of the factors used to project the ultimate cost of claims for more recent years.

The provision for outstanding claims is based on information available at the balance sheet date. The majority of claims are settled only after extensive investigation and negotiation, which can take a number of years to complete. Accordingly, the ultimate cost of such claims cannot be known with certainty at the balance sheet date.

Subsequent information and events may result in the ultimate liability being greater or less than the amount provided. Any differences between provisions and subsequent settlements are dealt with in the general business technical account in later years.

#### (d) Reinsurance

Reinsurance recoveries and reinstatement premiums are accrued to match the relevant claims that have been charged to the Income and Expenditure Account.

#### (e) Investment income

This comprises investment income received during the year adjusted in respect of interest receivable at the year end. The investment income is apportioned among and between the different policy years and reserves from which the funds originated.

#### (f) Investments

Investments are stated in the Balance Sheet at market value. Unrealised investment gains and losses as a result of movements in the market value of investments are accounted for through the Non-Technical Account. Realised gains and losses are recognised at time of disposal as proceeds less original acquisition costs.

#### (g) Taxation

Unrealised gains and losses as a result of movements in the market value of unit trusts and fixed interest investments are accounted for through the Non-Technical Account. A taxation charge or credit arises based on the unrealised movement in the year.

### 3. Related party disclosures

The Company has no share capital and is controlled by the Members who are also the insured's. The resulting insurance transactions are consequently deemed to be between related parties but these are the only transactions between the Company and the Members.

All the Directors are Representatives of Members of the Company and other than the insurance, the Directors have no financial interests in the Company. Five out of the seven Directors are paid an annual fee of £2,500 and a £2,500 attendance fee per meeting. At the year-end £17,500 was due to the Directors. The Fees paid to each Director are capped at £20,000 per annum. S.I.M.I.A. Management Company received £600,000 (2013 - £700,000) from the Company in respect of management fees for the period.

### 4. Management costs

The management fee paid to S.I.M.I.A. Management Company is apportioned between the different management functions. A portion of the fee is allocated to acquisition costs, and in the case of the Company acquisition costs has been interpreted by the Directors and Managers as the cost of recovering unpaid supplementary calls. Costs are allocated to: claims handling; investment management services and administration expenses, which include regulatory compliance, the preparation of accounts and general management.

Following the decision to place the Company into run-off, the apportionment of the management fee has been changed to reflect the functions which now consume a greater proportion of management resource.

	<b>2014</b>	<b>2013</b>
	<b>£</b>	<b>£</b>
Acquisition costs (note 7)	69,770	81,397
Claims handling (note 6(a))	167,434	195,344

Investment management services (note 8)	55,814	65,116
	<u>600,000</u>	<u>700,000</u>

Claims handling costs are treated as part of claims paid (note 6(a)).

Acquisition and administration expenses are included in the net operating expenses (note 7).

### 5. Reinsurance premiums

The Company wrote a maximum of £4.5m any one claim. From the 2008 policy year onwards the Company has reinsurance protection of £1m in excess of £1m (subject to an aggregate excess of £1m), and £2.5m excess of £2.0m. The Company also had fees break-out cover of £1m in excess of £4.5m. The reinstatement provisions on the reinsurance contract are as follows:

- Four reinstatements on the layer £1m in excess of £1m.
- Four reinstatements on the layer £2.5m in excess of £2m.

### 5. Reinsurance premiums (continued)

For U.S.A. and Canadian exposures (excluded under the main reinsurance contract), the Company has reinsurance protection which cover claims and defence costs of £3m in the aggregate, in excess of £1.5m in the aggregate, costs inclusive, each additional risk. Two reinstatements are available on this layer of Cover.

The maximum possible net loss to the company from one incident is £2m.

In arranging reinsurance contracts, the Company carried out financial checks on the prospective reinsurers in order to gain confidence that recoveries will be settled if and when they fall due.

(Decrease) in gross provision for claims	<u>(9,502,591)</u>	<u>(4,322,819)</u>

For many years the Company considered itself to be an insurer of a "quasi-catastrophe" nature. This was because it generally insured the layers above £2m or £3m and very few claims resulted in payments in excess of £1m or £2m from the ground up.

The Company's more recent claims experience however suggests that the layers of insurance above £2m or £3m have become working layers.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

### 6(c). Change in gross provision for claims (continued)

Overall there was an improvement in the claims ultimates experienced in the year. In the earlier years (1998 and 2003) there was a small change suggesting that the deterioration experienced over the last few years is reducing at each year end. The 2004 policy year improved in the year but the 2005 and 2006 policy years deteriorated as some claims were settled above the original estimate. The 2007 policy year still has a number of open claims on it. The outcome of the 2008, 2009 and 2010 policy years remains relatively uncertain, but the claims experience suggests that the final outcome will be in line with expectations. As such the ultimates for each of these years has been maintained at £6million.

The improvement in claim ultimates of £0.755m (2013 deterioration £0.966m) analysed across the relevant policy years is as follows:

Policy Year	Deterioration £	Improvement £	Total £
1998	(15,000)	-	(15,000)
2003	(1,361)	-	(1,361)
2004	-	834,286	834,286
2005	(71,634)	-	(71,634)
2006	(313,941)	-	(313,941)
2007	-	310,000	310,000
2008	-	-	-
2009	-	-	-
2010	-	-	-
	<u>(401,936)</u>	<u>1,144,286</u>	<u>742,350</u>

Release from claims handling provisions	180,000
Claims handling expenses (Note 4)	<u>(167,434)</u>
	<u>754,916</u>

Having reviewed the notifications made to date in respect of all policy years, the Audit, Investment and Claims Committee of the Board considers that the gross claims provision of £15.234m and net claims provisions of £12.135m (2013: Gross claims provision £24.737m and net claims provision of £20.955m) for all policy years is reasonable.

The movement in the gross provision for claims is the difference between the provision for outstanding claims on all policy years at the beginning of the year and the equivalent provision at the end of the year, after deduction of all claims paid during the financial year and addition of the allowance for new claims notified in the 2010 policy year.

### 6(d). Change in Reinsurers' share of technical provision

	<b>2014</b>	<b>2013</b>

	<u>28,098</u>	<u>(4,046,899)</u>

The reinsurers' share represents the provision for that part of the gross claims provision, which is recoverable from reinsurers. It is based on estimated recoveries against actual claims and costs payments made and estimated claims and costs provisions.

The movement in the reinsurers' share of outstanding claims is the difference between the provision at the start and at the end of the financial year.
